SUMMARY

Product marketer with 7+ years of experience across enterprise AI, B2B SaaS, and early-stage ventures. Translates complex technical platforms into clear vertical positioning, high-impact sales enablement, and buyer-specific narratives. Proven track record of leading research teams and building repeatable GTM frameworks.

CORE SKILLS

Product positioning and messaging, enterprise go-to-market, sales enablement, competitive intelligence, win/loss analysis, buyer research, vertical playbooks, account acquisition, funnel analytics.

HubSpot, Clay, GA4, Mixpanel, Supabase, Cloudflare, Python, Zapier, n8n, Notion, Canva.

PROFESSIONAL EXPERIENCE

GENIE AI
Marketing and Research Manager (April 2023 - Present)

- Led vertical positioning and go-to-market strategy for an enterprise AI platform, translating core capabilities into tailored sales playbooks for airport facilities, commercial real estate, and healthcare.
- Drove product naming and repositioning from Property+ to CommunityOS, shifting the narrative from a feature-led proptech tool to a connected community and property operations platform for multi-stakeholder environments.
- Built sales enablement assets including vertical pitch decks, battlecards, objection-handling guides, and landing pages, equipping sales reps with stage-specific collateral for enterprise conversations.
- Drove commercialization for 8 enterprise pilot launches, including leading market rollout for HospitalOS across 7 Canadian hospital networks and 3 international branches.
- Built the research methodology and led a 6-person marketing and research team to map high-ticket enterprise accounts, uncover buyer priorities, and support targeted sales outreach.

WEB3 and Fintech Growth
Co-Founder and Marketing Consultant (July 2019 - October 2022)

- Led product positioning and GTM for Earna (decentralized finance), growing adoption from 0 to 10,000+ users and driving $1M+ in total value locked.
- Directed $70,000+ acquisition campaigns for the Binance Incubator Program and onboarded 11 Indian startups to the Binance developer ecosystem.
- Led analytics-driven user research and onboarding audits for Dapper Labs and Stakefish using Mixpanel, improving user retention by 30%.

EDUCATION

- Bachelor of Engineering in Mechanical Engineering (2013 - 2017), Anna University, Guindy.
- TN Higher Secondary Board Examination: 97.75%
